about bayliss ward

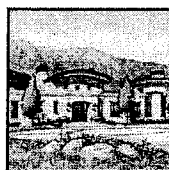

Principal and founder of Bayliss Architects, P.C., Bayliss Ward possesses a wide range of experience and a strong sense of creative design.

Bayliss is a longstanding member of the Bozeman area and has developed an excellent rapport with his peers and clients. He originally founded Bayliss Design in 1991, which now has grown into Bayliss Architects, P.C. Bayliss has also worked as an Architectural Designer for RTKL Associated in Ft. Lauderdale, FL and Lead Designer / Project Manager for Robert Marasco Architects in Colorado Springs, Co.

Bayliss' project experience includes large-scale commercial/office projects, high density residential, site development master planning, medical facilities, classroom facilities, and large custom residential homes. He has performed work in both the government and private sectors with commercial and residential projects providing him with a wide variety of architectural experience.

Bayliss' commercial projects range from small retail design, like Leaf and Bean on 19th, to large-scale commercial projects, like Zoot Enterprises. Through every varying situation Bayliss has acquired experience working with each client and the appropriate building officials to meet the relevant codes. Several of the commercial projects have been located in Bozeman's Historical District. Bayliss Architects performed historic renovations for Accents West and Old Main Gallery in Bozeman, MT. Old Main Gallery received the Historical Preservation Society Award for the changes that were made to the existing building. Bayliss Architects also received an Historic Preservation Award for Excellence in 1998.

Bayliss also has vast experience with residential projects. These projects range from small more efficient plans to large elaborate custom homes. He has completed projects from England to his own backyard. Bayliss has had two Parade Homes featured in Bozeman's *At Home* publication and one featured in *Architectural Record* - a national publication. Each member of Bayliss' design team works closely together to creatively satisfy the issues surrounding the design of the "custom home".
